Writing is one of the most crucial skill English as a second language learners. Mistakes in spelling, grammar and word choice are immediately evident. Writing is the easier it will be to access the English you are looking for and express yourself accurately and fluently.

Writing is a form of an art and integral part of language learning. The present study concerns with development of writing skills. Writing is one of the most important skills in learning a new language. It is a productive skill. Writing is the act of putting down the graphic symbols that present a language in order to convey some meaning so that the reader can grasp the information which the writer has tried to impart. We start from the assumption that thinking about writing can improve it, and that everyone can learn to write well. Most people, in reality can write successful letters to their friends and effective complaints about faulty goods. Writing is an extremely complex cognitive activity in which the writer is required to demonstrate control of variables simultaneously. At the sentence level, these include control of contents, format, sentence structure, vocabulary, spelling and letter formation. Beyond the sentence, the writer must be able to structure and integrate information into cohesive and coherent paragraph and text. For Rivers writing refers to the expression of ideas in a systematic way to organize the graphic conventions of the language; the ultimate aim of a writer at this stage is to be able to express him in a polished literary form which requires the utilization of a special vocabulary and certain refinement structure.

Writing as, "...the method of human inter-communication by means of conventionally visible marks. Writing is far from being a simple matter of transcribing language into written symbols: it is thinking process in its own right. It is a permanent record, as a form of expression and as a means of communication.

From the above citations, writing could be perceived as a complex process that requires many skills like mental, psychological, rhetorical and critical aspects.

Writing is the system of written symbols which represents the sounds, syllables or words of language. Writing skill requires different mechanisms as capitalization, spelling and punctuation, word form and function. It helps to convey the meaning clearly. So, writing is an activity to improve our understanding of any subject. Writing is the ability not only to put ideas from mind to paper but also to generate more meaning and make ideas clear. Writing demands conscious intellectual effort, which usually has to be sustained over a considerable period of time. There are various processes in writing skills. Process writing is one of the most important skills in writing. Writing skill is a component of language skill with important role in human life. Through writing activity, an individual can express his idea and thought to achieve purpose and objective. For that reason, writing skill is the language skill considered as most difficult to master compared with other skills. Pouring idea and thought into writing should consider the grammar rule corresponding to the correct spelling [1, 56]. However, while this activity is a part of language ability aspect, writing skill gets inadequate particular attention. Through writing, an individual can tell about idea, feeling, event, and object to others. For that reason, this ability should be taught appropriately in elementary school. But the reality proves that writing teaching is carried out incorrectly.

Today's day developing writing skill in English are focused. As we know writing in English is often easier than speaking for a lot of language learners. There are different ways, tips of writing skills in English. We can learn to write much better through these tips.
