

MILITARY PATRIOTIC EDUCATION

Alinazarov Nodirkhan Nasirkhonzoda

Student of the Faculty of Military Education of Fergana State University

Abstract: *The spirit of military patriotism is the spirit of human high priority and brilliance that corresponds to the legitimate needs of a soldier or soldier. This spirit requires one to have a serious commitment to one's country and national identity, to protect and serve it.*

Key words: *training, military, spirit, increase, soldiers, humanitarian, generations, higher, organization, protection, abilities, national, values, society, development.*

And education is an effective task to concentrate and increase the spirit of military patriotism. This can be done in various schools such as families, schools, schools-madrasas, universities, military positions, generations organized in order to increase such rights, or military training centers.

One of the features of education is to increase the spirit of patriotism, the ability to fix secondary special zakats, and to focus on personal abilities and national spirituality. Thus, education in the spirit of military patriotism will help us to apply our country's independence, clear human values and future national relations. Military patriotism teaching tools are used during education, such as lessons, books, textbooks, games, films, instructions and many others. With the help of these tools, students are helped to protect their peace, create positive feelings and thoughts in society, align with national spirituality, develop human values, literature, history, literature, modernity, repentance and freedom of conscience.

Education in the spirit of military patriotism helps people to develop their contribution to society and helps to provide them with a sense of independence, positive and human values in the working conditions of our people. Also, military patriotism education, the state, human rights and freedoms, family ties and national skills and complex sales documents and other information are more fully supported.

One of the most important things during military patriotism education is to increase enthusiasm and enthusiasm in people. Serious burdens such as the need for responsibility and risk rights, creating a strong sense of security, high-level state-motherland protection against foreigners, protection of national capabilities are related to the spirit of military patriotism, and peace, courage, priority and other qualities are needed to serve its development. requires.

The main goal of military patriotism training is to help a person to become an independent person in the bosom of the country, an attractive person who will help the future of our country, who will contribute to the future of our country, and who will help to create a valuable and developing person to adapt the society to international relations.

Self-assertion, activity according to the laws, preparation for ensuring the security of the country and specialization of our family in international documents in the foreign balance are the main topics of education in the spirit of military patriotism.
