**Annotatsiya:** *this article is written about the opportunities created for the youth. Now all the conditions have been created for the education of all young people of Uzbekistan. It is written that we should use these opportunities correctly and wisely and get more knowledge.*

Introduction

It is known that the Republic of Uzbekistan is directly related to the youth. Therefore, new opportunities and conditions are being created for youth people to acquire knowledge. It is also noteworthy that the right to free general education is guaranteed for young people in Article 41 of our Constitution. The right of a person to receive education is also strengthened in the Law "On education" adopted on the basis of our basic law and the national program of personnel training.

As you have witnessed, there is a new modern Youth Center with all conditions in the districts of each region. At the Youth Center, our young people, who are hungry for knowledge, go to various training sources and get knowledge.

It should be also be noted that the transfer of studies from foreign educational institutions to our higher education institutions, test procedures, test knowledge at five IELTS at the same time Rish issues are a clear example of this.

If I compare myself, 2021 Higher Education of Uzbekistan Admission to the five most prestigious institutes and universities of the institution I was done. Tashkent International University of Chemistry is located in Tashkent I was admitted to a non-governmental higher education institution based on a state grant.

All these are a new opportunities created by our honorable President Sh. M. Miromonovich for the youth. In short, during the last 5 years, the ground has been created for the youth to be supported in every way, and for them

to grow up as perfect human beings. This attention given to young people is finally paying off. The achievements of our youth at the international and national level are a clear proof of this. There is no doubt that our future will be bright in the hands of such young people as result of these reforms. Because today's youth is the foundation of our tomorrow, the Third Renaissance of New Uzbekistan.
